The Course knowledge control consists of: Financial modeling (Exam – public defense of the model); Obligatory cases; Facultative cases; Classes activity.

#### **Course core content**

# Only LOGIC

### **Grading principles**

#### **Objectives**

Credits (maximum)/ Final grade points

**Max 10** 

#### **Exam** (Model defense):

for each Working Group member

**Attendance** 

**Obligatory cases** 

**Facultative cases** 

**TOTAL CREDITS** 

**GRADE** 

						1
<b>′11</b>	17/11	24/11	05/12	18-00 12/12		
t of ution	First entries	Created assumptions	Full set of spread-sheets	Model's completed	50/5	
Checked through the entire period						-
Solutions have to be sent to e-mail: info@cherkasov171.ru till Dec, 12 <sup>th</sup> , 18-00						
Solutions have to be sent to e-mail: info@cherkasov171.ru till Dec, 12 <sup>th</sup> , 18-00						_
					120/10	
\L				1	B.4 1.0	

The person obtained less than 4 credits for attendance **OR** less than **10** credits for solved cases **OR** didn't participated in working group activity likely gets "-1" point to the final grade for each type of breach.

## **Grading principles**

Time value of credit				
Credits amortization	before 28/11	28/11-10/12	after <b>10/12</b>	Total dead-line
Each 1 credit costs	1,0000	0,7368	0,5429	12/12 18-00 (6 p.m.)

This is your first optional/facultative **CASE!!!** 

Please, find a mistake in the numbers above.

Yeah..., here are the periods of different duration..., but let's imagine they're equal.

Those who find an answer will benefit from it – quite significantly.

## **Grading principles**

Personal grades for cases solved and attendance	Ind.Points before exam	Ranking	Exam
Group 1	98	Ranking 1	The Group 1 begins the latest in the exam. It should answer the questions of the Group 2.
Person 1	31		
Person 2	34		
Person 3	33		
Group 2	<i>80</i>		The Group 2 begins the
Person 4	27	Danking 2	first in the exam. It should prepare the serious questions for the model presented by the Group 1.
Person 5	28	Ranking 2	
Person 6	25		

The exam is a public defense of the model constructed by the Group. The better are individual grades of the Group members - the later is Group's performance in the exam. The worse individual grades (for homework & attendance) create an additional job for the exam: you prepare the questions to the Groups with higher rankings.
